

## Worms Sap Children's Health

Mothers often wonder why their children are not robust and healthy. In a vast number of cases the trouble is—Worms.

Signs of worms are: Deranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly with occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching Trade Mark eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on tongue, starting during sleep, slow fever.

Dr. True's Elixir, the 60 years' time-tried Family Laxative and Worm Expeller, will expel the worms and restore the vim and vigor to your child. Good for adults also. Mr. Horace Cheney of Belmont, Maine, reports that he buys 12 bottles at a time. 35c, 50c and \$1.00 at all dealers. Advice free. Special treatment for tapeworms. Send for book.

Auburn, Maine. **Dr. True**

## A DOUBLED RATE

Sought for Transportation of Milk, It Is Declared.

Boston, Feb. 25.—The claim that the Boston & Maine railroad was seeking an increase of 100 per cent in its rates on cream was made yesterday at the investigation by the interstate commerce commission into milk rates in New England.

It was shown that the present tariff on cream, which is the same as on milk, is \$49.32 a carload for a haul of 185 miles. Attorneys for dealers brought out that the Boston & Maine had asked for a rate of \$102.23 on a carload of cream for the same distance.

Charles M. Purt of the Boston & Maine stated that the new rate was not too high as the present charge was far below the point where it would give the company a revenue on this business.

## HOUSE LEAVES ENGLAND TO-DAY.

President's Special Representative Returning After Visit to Belligerents.

Falmouth, England, Feb. 25.—The steamship Rotterdam, sailing for New York to-day will carry among other passengers Colonel E. M. House, special representative of President Wilson.

## Students Make Dyes.

Boston, Feb. 25.—The fact that students of the Lowell Textile school have produced dyes which Principal Ames said "could not be distinguished from the German product," was brought out yesterday at a legislative hearing on a bill to provide the annual appropriation for that institution.

## Green Cut Bone and Meat Cannot Be Cut as an Egg Producer

Any poultry food that will increase egg production more than 800 per cent, in the middle of winter when eggs are high and scarce is certainly something to be sought after by poultrymen. L. M. Boulds of Island Pond, Vt., writes to C. S. Page of Hyde Park, as follows: "Your green cut bone for poultry cannot be beat. It brought my eggs up from one or two a day to seventeen so far. We would not be without it. Enclose find check for one more barrel."

Green cut bone and meat like that sold to Mr. Boulds will be sent by Mr. Page, during freezing weather, freight paid to almost any station, for the small sum of \$4.00 for a 200-pound barrel. Send money by registered letter, check, postal or express money order, and the goods will be promptly forwarded.

## ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

The Congregational church at Barre was rededicated Sunday after extensive repairs.

Over \$1,100 has been pledged by business men of St. Johnsbury toward a community house in that place, provided that \$15,000 can be raised by sale of stock.

Among the recent patents granted to Vermonters is one to Frank A. Dresser of Lyndonville for a quarter-crack clamping tool. Mr. Dresser is in charge of the blacksmith work at the Lyndon school of agriculture.

Harris Epstein of Middlebury, a shoemaker, has filed a petition in bankruptcy with Clerk F. S. Platt of the United States court. His attorney is Ira H. LaFleur of Middlebury. Mr. Epstein has liabilities of \$605.08 and assets of \$608.50, of which \$90 is exempt.

Dr. and Mrs. A. P. Grint observed the 30th anniversary of their marriage Feb. 16 at their home in St. Johnsbury. Parishioners of St. Andrew's church, of which Dr. Grint is the rector, presented them \$61 in gold and the Sphinx club, of which he is a member, gave \$20 in gold.

To Advertise "Long Trail."

The executive council of the Green Mountain club held a meeting at Rutland Thursday. The meeting was called to talk over plans for the coming season. Considerable money is needed to extend the work of trail building and promote the other interests of the club and plans for raising funds were discussed yesterday. For the first time in the history of the club the members will make a canvass in parts of the state where there are organized sections.

An effort will be made to show the people that the state-long trail is a great advertisement for Vermont and that the citizens should do all in their power to support the project because of its value in bringing in outside people.

At those of the meeting included James P. Taylor of Burlington, State Forester A. F. Hawes of Burlington, E. S. Marsh of Brandon, Frank H. Clark of Windsor, Frank E. Howe of Benning, J. L. Griswold of Bennington, H. M. Swift of Manchester, Redford Proctor of Proctor, and James A. Merrill and Willis M. Ross of Rutland.

## JEAN DUBUC AS GUEST.

Of French Catholic Association in St. Johnsbury.

St. Johnsbury, Feb. 25.—Jean Dubuc of Montreal, a member of the Detroit American baseball team, was the guest of the French Catholic association at a banquet in their hall last night. Covers were laid for 75. A short literary and musical program preceded the banquet.

At the postprandial exercises, Dr. J. A. Drouin, was toastmaster and the speakers were: Rev. E. C. Drouin, pastor of Notre Dame church, Rev. J. A. Dame, of Sheldon Springs, a former director of the association, Louis N. Smythe, Dr. W. E. Fitch and Mr. Dubuc. The hall was prettily decorated for the event, the first of its kind to be given by the organization.

Mr. Dubuc, one of the Detroit pitchers, is a native of St. Johnsbury. He was born in 1888 and lived here until four years of age, when his parents moved to Burlington. There he attended St. Michael's college and got his first experience as a baseball player. He is now played in Notre Dame, and in big company has been enrolled on the Cincinnati Buffalo, Montreal and Detroit teams. This is his first visit to St. Johnsbury since he left here as a child and he was given a hearty reception last night. The French Catholic association is made up of young men of Notre Dame parish and has been in existence about seven years. The members of the association are enthusiastic over sports and the club has furnished some very fast baseball, basketball and hockey teams. The membership numbers about 60, and under the direction of Rev. D. Carriers, the treasurer and director, the club is enjoying one of its most successful seasons, both socially and financially. The officers are: Rev. E. C. Drouin, honorary president, Dr. J. A. Drouin, president; Laurent Gagner, vice president; Eugene Gagner, secretary; Rev. D. Carrier, treasurer and director.

## The Revolt in the House.

All the Democrats on the foreign affairs committee of the House of Representatives want President Wilson to warn Americans to keep off armed vessels. After conference with him to-day these members threaten to adopt a resolution expressing this view unless he yields to them in private audience. The sentiment among Democrats in the Senate is not so strongly on that side, although somebody there will undoubtedly introduce such a resolution, and it will get some support.

All this ought to be illuminating to those people hereabouts who have been persistent that the United States should get into the war on the side of the allies. The Herald has steadily told them that—American public sentiment would not sustain such a course, and that any president who adopted it would find himself checked at the start.

In spite of all his vacillation and uncertainty, President Wilson has taken a far more intelligent attitude, in the light of international law and its precedents, than have the members of his own party in Congress. Between them on one hand, and such a secretary of state as Bryan on the other, he has surely had occasion to wish himself "a man without a party."

All this is further illustrative of our lack of a policy as a nation in our world relations. As a people we have "no mind of our own," as the president of Amherst college asserted in a recent speech. Mr. Bryan has a mind of his own, and so has Hoke Smith of Georgia, and Senator O'Gorman of New York, and the blind senator from Oklahoma. And upon them all, in greater or lesser degree, President Wilson, as head of the Democratic party, must depend.

Verily, Germany finds strong allies in the Democratic members of Congress. What they do not know about international law and its obligations contributes mightily to the support of the strange coalition of the "central powers," and the Democratic search for the last obtainable vote, on the eve of a presidential election, yields little respect for the dictates of enlightenment.—Boston Herald.

## IF BACK HURTS USE SALTS FOR KIDNEYS

Eat Less Meat if Kidneys Feel Like Lead or Bladder Bothers

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless, makes a delightful, effervescent, lithia-water drink, which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

## Decorating the Home.

Every housekeeper sometimes has to face the problem of wall decoration. You may be among the number of fortunate ones that are expecting to decorate your walls this spring. You have a pleasure in store for you then for there is nothing in the whole process of cleaning house that affords more lasting satisfaction than clean, beautiful walls. The result outweighs the disagreeable labor necessary in cleaning and preparing the walls for their new dress.

No wall is a success unless it has been prepared in the right way and treated with the right material.

Ask yourself these for questions: First—Is the wall a new or an old one? Second—If a new one, how well seasoned is the plaster? Third—What kind of a surface has it, a rough sand coat or a smooth, hard finish? Fourth—If an old wall, what kind of material was used upon it before?

If your plaster wall is well seasoned and has never been decorated no cleaning or preparing of the surface is necessary. Otherwise the old covering must be scraped off and the surface must be cleaned.

The rough sand coat plaster is very

Relief comes instantly.

A dose taken every two hours until three doses are taken will end gripper misery and break up a severe cold, either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.—Adv.

## Why Suffer From Migraine or Sick Headache?

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but it does appear to be hereditary. Sufferers from this affliction are condemned to undergo the periodical attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. Palliative measures during the attack are all that it is possible to suggest, while care in the diet is the best preventive measure. An attack may often be prevented by taking two anti-kamnia tablets when the first symptoms appear, and one anti-kamnia tablet every two hours during the attack shortens it, eases the pain and brings rest and quiet. Anti-kamnia tablets may be obtained at all druggists. Ask for A-K Tablets. They quickly relieve all Pain.

Went Somebody Help Carnegie?—He Has Only \$20,000,000 Left.

In the March Woman's Home Companion it is announced that Mr. Carnegie is in dire need, as a result of his practice of giving to charity. He has given away \$350,000,000, and has only \$20,000,000 left.

"Everybody talks about Mr. Carnegie's condition, but nobody moves. That is, practically nobody. A man named Marquis announced that he would receive contributions for Mr. Carnegie. A small boy busted open his Christmas bank with the family hammer and sent in two coppers. Whereupon the wily Marquis, who evidently is a potential millionaire himself, called attention to the fact that he never promised to forward contributions to Mr. Carnegie—simply to receive them—and decamped with the two cents."

## STATEMENT OF THE TREASURER OF WASHINGTON COUNTY

From January 31, 1915, to February 1, 1916, Showing the Financial Condition of the County at the Close of Business January 31, 1916

RECEIPTS
